### **DETAILED ACTION**

### Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 18, 2002 has been entered.

## Response to Amendment

2. This office action is in response to the amendment filed on March 18, 2002 in which applicant amends claim 1 and responds to the claim rejections.

## Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sagawa et al. (E.P. 0,903,169A2) in view of Kosugi et al. (U.S. 5,229,756).

The rejection as stated in Office Action, Paper No. 9 is retained and incorporated herein.

## Response to Arguments

5. Applicant's arguments filed March 18, 2002 have been fully considered but they are not persuasive.

6. Applicant alleges Kosugi et al. (U.S. 5,229,756) lacks disclosing the newly amended claim limitation requiring, "said signal being representative of a change in velocity of said signal generating device being moved by said game player." However, claims 2 and 8 in Kosugi et al. are directed to an image control apparatus according to claim 1, wherein said movement detection means detects the velocity of said movement of said operator.

Therefore, for the reasons discussed hereinabove, the rejection as stated in Office Action, Paper No. 9 under 35 U.S.C. 103 is maintained.

### Conclusion

7. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Application/Control Number: 09/655,511
